ID ↑	Name	Responses
1	anonymous	Carry on what you are doing its amazing
2	anonymous	Realising that academic achievement isn't the be all and end all of school life. Learning to be a productive member of society, contributing to the good of the community however they can.
3	anonymous	You all do an amazing job thank you
4	anonymous	We feel that overall the vision and values are very strong (difficult to choose a focus). We would just query the academic part of the vision; we assume there is a caveat here regarding ability. Not everyone is academic.
5	anonymous	That every child is fully included and supported to be apart of the school community
6	anonymous	Wonderful values! ❤️
